# New commerce experience promotions: how-to guidance

Beginning in January 2022, a 5 percent discount on annual-term offers will be available on commercial seat-based offers in new commerce, and monthly term offers will be priced the same as annual term. Monthly term promotional pricing will be in effect through June 2022. Annual term promotional pricing will be in effect through March 2022; however, Microsoft reserves the right to extend annual term promotional pricing up to, and including, June 2022.

## Offer details

Monthly offers (January– June 2022)	Annual offers (January– March 2022)
16.7% discount* vs. list price (to match legacy annual)	5% discount versus list price
Limited to 2,400 seats per subscription Modern promo via API Not on price list; available to all partners	

\* Discount is calculated as (promo price – list price) / list price. Promotions don't apply to nonprofit, academic, and government prices available in CSP. Monthly offers have a 20 percent premium over the equivalent annual offer.

## Additional information

Purchase price and details:

- Promotional prices can be viewed using the Partner Center API or by viewing the promotion in the Partner Center catalog experience.
- Apply the percentage discount in the promotion details to list prices on the posted price list to determine the expected price.
- Purchased promotions can be found in the recon file after the purchase is billed.

Adding seats:

- Additional seats may be added during the promo period up to the maximum seat constraint (2400).
- Additional seats may be added following the promo period at the promo price up to the maximum seat constraint (2400).

Auto-renewal:

- Annual. At the end of a 12-month subscription, promotion renews into regular price, which includes any price increases that might have been announced.
- Monthly. Renews monthly at the promo price during promo term. Once promotion ends (June), subscription will renew into the regular SKU price, which will include price increases that went into effect during the promo period.
